

Kimberly-Clark* Purple Nitrile* Exam Gloves

Put the Science of Protection to Work in Your Lab

Your employees are your most valuable asset. That's why they deserve the worry-free protection of Kimberly-Clark* Purple Nitrile* Exam Gloves. Our gloves guard against incidental splash exposure. The gloves are made of a highly durable nitrile polymer that eliminates the risks and costs associated with type 1 natural rubber latex allergies.

Kimberly-Clark* Purple Nitrile* Exam Gloves are the gloves of choice in leading labs because they are comfortable to wear and provide excellent tactile sensitivity. When users see the distinctive color purple, they know they can concentrate on the task at hand, protected from known and unknown risks.

Smartpull* Dispenser Box

Smartpull dispensing incorporates 2 separate openings on the box. The first, smaller opening is used when the box is full and helps control dispensing to lessen waste from dropped gloves or multiple dispensing. When the box is half empty, the second, larger opening allows easier access to the gloves. In addition, the dispensing box also provides up to a 33% waste savings.*
